RTK 250 horizontal, mobile

Equipment for melting and processing thermoplastic road marking materials and bituminous joint, rail sealing and railway grouting materials

- Compact design, mounted on a trailer chassis
- High melting performance for powder or block materials with low gas/heating oil consumption
- Boiler shell made of wear-resistant and heat-resistant special steel
- Quick heat-up time
- Horizontal, hydraulically driven agitator, electrically switchable
- Indirect heating by flame-shield/flue gas chamber

Technical details:

Description	RTK 250
Item no.	84003 0000
Boiler capacity	250 L
Approx. length	3100 mm
Approx. width	1650 mm
Trailer chassis	Single axle
Approx. height	1780 mm
Approx. deadweight	1070 kg
App: Total weight	1800 kg

Other sizes on request.
Subject to technical changes.
